Updated 3 minutes ago

9Experiment+⋮

🕒 US 01.05.01 Experimenters can exascute trials for an experiment and upload them to the experiment when they have an internet connection.

#5 opened by ChrisWen980

4/5High

🕒 US 01.01.01 Owners can publish an experiment with a description, a region, and a minimum number of trials.

#1 opened by ChrisWen980

3/5High

🕒 US 01.06.01 Owners and experimenters can see histograms of the results of trials of an experiment.

#8 opened by ChrisWen980

5/5Medium

🕒 US 01.07.01 Owners and experimenters can see plots of the results of trials of an experiment over time.

#9 opened by ChrisWen980

5/5Medium

🕒 US 01.09.01 Owners and experimenters can observe statistics (quartiles, median, mean, stdev) about current trials of an experiment.

#7 opened by ChrisWen980

5/5Medium

🕒 US 01.02.01 Owners can unpublish an experiment.

#2 opened by ChrisWen980

3/5Medium

🕒 US 01.03.01 Owners can end an experiment. This leaves the results available and public but does not allow new results to be added.

#3 opened by ChrisWen980

2/5Medium

🕒 US 01.04.01 Owners and experimenters can subscribe to an experiment to bookmark it for easy access.

#4 opened by ChrisWen980

4/5Low

🕒 US 01.08.01 Owners can add users to a blacklist for their experiment, hiding and ignoring their trials for the experiment.

#6 opened by ChrisWen980

4/5Low

3Questions+⋮

🕒 US 02.01.01 Experimenters can post questions about an experiment.

#10 opened by ChrisWen980

4/5Medium

🕒 US 02.02.01 Experimenters and owners can reply to questions about an experiment.

#11 opened by ChrisWen980

4/5Medium

🕒 US 02.03.01 Experimenters and owners can browse questions and replies about an experiment.

#12 opened by ChrisWen980

3/5Medium

3QR Codes+⋮

🕒 US 03.02.01 Experimenters can scan QR codes to indicate success or failure, or increment counts for a specific experiment's trials.

#14 opened by ChrisWen980

4/5Low

🕒 US 03.03.01 Experimenters can register an arbitrary bar code (such as one off of their favourite book) to indicate a specific type of result for a trial.

#15 opened by ChrisWen980

3/5Low

🕒 US 03.01.01 Experimenters can generate printable QR codes for themselves for a specific experiment's trial result (ex. PASS for a subscribed binomial trial).

#13 opened by ChrisWen980

2/5Low

3User Profile+⋮

🕒 US 04.01.01 Owners and experimenters can create a profile with a unique username and their desired contact information.

#16 opened by ChrisWen980

2/5Low

🕒 US 04.02.01 Owners and experimenters can edit the contact information in their profile.

#17 opened by ChrisWen980

2/5Low

🕒 US 04.03.01 Owners and experimenters can retrieve and view the profile of a presented username.

#18 opened by ChrisWen980

2/5Low

2Searching+⋮

🕒 US 05.01.01 Experimenters can specify a keyword and search for all experiments containing that keyword that are available.

#19 opened by ChrisWen980

1/5Medium

🕒 US 05.02.01 Experimenters can see the description, owner username, and status of each result returned by a search.

#20 opened by ChrisWen980

1/5Low

4Location+⋮

🕒 US 06.04.01 Experimenters can see a map of geo-locations of each trial (that has a geo-location) for each experiment.

#24 opened by ChrisWen980

4/5Medium

🕒 US 06.01.01 Owners can specify whether a Geo-location is required for trials of their experiment.

#21 opened by ChrisWen980

1/5Medium

🕒 US 06.02.01 Experimenters can add Geo-locations to trials for experiments.

#22 opened by ChrisWen980

1/5Medium

🕒 US 06.03.01 Experimenters will be warned about experiments requiring geo-locations submitted for their trials.
